

Meeting 7

8/5 - 6:30pm

Attendance: Zion, Matt, Nathan, Nicholas

We finally got access to the repo, but it requires two factor authentication to get everyone signed up. At the moment, only Matt has access. We scheduled a zoom meeting with Abbey tomorrow so that the two factor authentication could go through on everyone's account.

We also realized that we should make some modifications to the dates on our charter. Our dates were too late, so we pushed them up to accommodate the final presentation expo.
