

## Meeting 12

11/9 - 6:30pm

Attendance: Nova, Zion, Matt, Nathan, Nate

Worked on getting a Heroku account set up and integrated. The integration setup wasn't fully complete by the end of the meeting, so Nathan and Matt set up times to meet next week to finish the setup. We want to have something to show/present to Owen by next week.

Generally spent time gathering resources and reading documentations on how to get Heroku setup.
