

Meeting 13

11/16 - 6:30pm

Attendance: Nova, Zion, Matt, Nathan, Nick

On Monday, 11/14, Nathan and Matt met up and got the heroku account set up and synchronized. We spent the entirety of the meeting today getting everyone properly signed up with heroku accounts and getting familiar with the local side of things. One by one, everyone got set up and we each pushed a single change to the home page so we knew how to push and pull.
