Meeting 27
4/5 - 6:30pm
Attendance: Nova, Zion, Matt, Nathan, Nate, Nick

Nick finished the privacy policy and terms & conditions pages. After some feedback from Abbey and Ethan, the group spent time attempting to deploy the website to AWS Cloud Services using Abbey's paid account. But we ran into problems with the deployment and we are going to spend the next week or so trying to get it deployed. This isn't going to be something we can do in a single meeting.
